Noken Porcelanosa Bathrooms is Porcelanosa Group's bathroom equipment specialist. Ever since it was set up, the firm has been defined by offering the highest level of technology, quality and exclusivity in its bathroom elements, from toilets and baths to highly innovative taps, washbasins and bathroom furnishings, shower trays, towel rails and bathroom accessories.

Noken Porcelanosa Bathrooms est la société du groupe Porcelanosa qui se spécialise dans l'équipement de la salle de bains. Depuis sa création, la marque s'est distinguée par les éléments hautement technologiques, qualitatifs et exclusifs, allant des WC et des baignoires aux dernières nouveautés en matière de robinetterie, de lavabos, de meubles de salle de bains, de pommeaux et de receveurs de douche, de sèche-serviettes et d'accessoires de salle de bains.

## PORCELANOSA

### GROUP SYNERGIES · SYNERGIES DU GROUPE

Noken shares knowhow with Porcelanosa Group. Therefore experts, criteria, and objectives are planned as a single brand with a comprehensive bathroom concept.

Noken partage son savoir-faire avec le Groupe Porcelanosa. Dans ce but, les experts, les critères et les objectifs sont organisés sous une seule marque, avec un concept de salle de bains globale.

### PRESENT IN 120 COUNTRIES · PRÉSENT DANS 120 PAYS

Noken is in a leading position of the sector's business rankings, exporting its products to more than 120 countries

Noken a fait sa place parmi les grands du secteur, et exporte désormais ses produits vers plus de 120 pays.

### 1,000 SALES POINTS · 1 000 POINTS DE VENTE

100 own stores and 43 logistics centres worldwide to support our advocates and customers

100 boutiques propres et 43 centres logistiques dans le monde entier pour accompagner nos prescripteurs et nos clients

### 5000 PROFESSIONALS · 5 000 PROFESSIONNELS

Noken has its own team within Porcelanosa Group, with specialist professionals and support from the Group's entire network, creating synergies all around the world

Noken dispose d'une équipe propre au sein du groupe Porcelanosa. Elle compte des professionnels spécialisés, bénéficie de l'appui de tout le réseau de collaborateurs du groupe, et crée par ce biais des synergies dans le monde entier.

## AROUND THE WORLD

### PROJECTS AROUND THE WORLD PROJETS DANS LE MONDE ENTIER

Noken has successfully completed more than 1000 projects in various market segments.

Noken a mené à bien plus de 1000 projets dans de nombreux segments de marché.

### AFTER-SALES SERVICE SERVICE APRÈS-VENTE

After-sales follow-up and customer service is as fundamentally important as the other strategies we implement. That's why SAT (technical assistance service) is available in the 120 countries we work with.

Le suivi et le service que nous garantissons au client après la vente sont tout aussi essentiels que les autres stratégies que nous mettons en œuvre. C'est pourquoi nous disposons d'un SAV dans les 120 pays avec lesquels nous travaillons.

### QUALITY OF PRODUCTION QUALITÉ DANS LA PRODUCTION

High-traffic or continuous use bathrooms demand durable and highly resistant equipment. Which is why it's essential to incorporate designs that make cleaning and maintenance easy, adding value to your project

Les salles de bains qui subissent un transit important ou une utilisation continue nécessitent des équipements durables et très résistants. Des modèles faciles à entretenir et à nettoyer offrent donc une valeur ajoutée déterminante à chaque projet.

### OPTIONS FOR SMALL BATHROOMS OPTIONS POUR DES SALLES DE BAIN DE PETITES TAILLES

Compact bathrooms for small yet well-designed spaces nurture comfort, welcoming and relaxation. They may only be a few square metres big, but a small bathroom can be full of style, practicality and above all, efficiency

Les salles de bains compactes mais bien pensées destinées aux petits espaces sont synonymes de confort, d'accueil et de détente. Parce qu'une petite salle de bains, même si elle ne compte que quelques mètres carrés, peut avoir du style, être pratique, mais surtout être efficace.

## DESIGN & ARCHITECTURE

### FLEXIBLE DESIGN DESIGN FLEXIBLE

Noken constantly researches new advances in the creation and development of new technologies, updating and adapting to the needs of our advocates' projects

Noken étudie de nouveaux développements pour la création et la mise en œuvre de nouvelles technologies, en s'adaptant constamment aux projets de nos prescripteurs.

## I+D+I

### R&D&I R&D+I

The R&D+i Department works with leading architects and highly complex designs, creating bathroom concepts that are ahead of their time.

Le Département de recherche, développement et innovation travaille avec des architectes de premier plan sur des projets très complexes pour créer des concepts de salle de bains en avance sur leur temps.

### NOKEN PRODUCTION CYCLE CYCLE DE PRODUCTION NOKEN

Noken cares for the product, from the raw material to the end of its service life, through the development, production, or customer satisfaction among other things..

Noken soigne l'ensemble des processus qui vont de la matière première à la fin de la durée de vie du produit, en passant par le développement, la production ou la satisfaction du client, entre autres.

### DESIGN FOR THE EXPERIENCE DESIGN POUR L'EXPÉRIENCE

In recent years, bathrooms have moved away from being essentially practical spaces, becoming prime locations for our emotional wellbeing. New bathroom equipment solutions are inviting us to discover a new, revitalised space, designed for us to take care of ourselves and make the most of the time we spend there

Ces dernières années, la salle de bains a cessé d'être espace essentiellement pratique pour devenir une pièce essentielle à notre bien-être émotionnel. De nouvelles solutions d'équipement nous invitent à redécouvrir un espace remis au goût du jour, conçu pour nous prendre soin de soi et pour mieux mettre à profit le temps que nous y passons.

# The change you choose

It's time to relearn, stop, and take notice. Changing our habits - however small - can revolutionise our lifestyle and change the way we interact with the planet: **#TheChangeYouChoose.**

Our eco-conscious concept WaterForest came about from us thinking about these changes. The label is shown on all products and solutions that reduce water consumption, CO2 emissions, and environmental impact. The label facilitates LEED and BREEAM certification for sustainable buildings, achieving water savings of up to 89% in hotel, housing and restaurant developments.

*Il est l'heure de désapprendre, d'arrêter et de prendre conscience des changements nécessaires. De modifier certains petits gestes qui peuvent (r)évolutionner notre style de vie ainsi que notre manière d'interagir avec la planète:*

**#TheChangeYouChoose.**

*La prise de conscience de l'importance d'un changement a donné naissance à WaterForest, notre concept éco-conscient.*

*Les produits et les solutions portant ce label réduisent la consommation d'eau, les émissions de CO2 et l'impact environnemental, et favorisent l'obtention de certifications comme LEED et BREEAM pour les bâtiments durables. Ils permettent en outre d'économiser jusqu'à 89 % d'eau dans les projets d'habitation, de restaurants ou d'hôtels.*

## BRASSWARE ROBINETTERIE

### Noken Eco-Flow

#### AERATORS

With no impact on user comfort, they maintain a steady flow rate regardless of pressure changes, limiting it by up to 89%. Replacements are available based on the desired volume (1.3 l/min, 3.5 l/min, 5 l/min, 7 l/min...)

#### AÉRATEURS

Ils maintiennent un débit stable en cas de changement de pression et le réduisent jusqu'à 89 %, sans nuire au confort de l'utilisateur. Ils se posent en fonction du volume souhaité (1,3 L/min, 3,5 L/min, 5 L/min, 7 L/min...)

### Noken Eco-Start

The cold-start mechanism opens the mixer tap in a central position, allowing only cold water to run. This therefore avoids any unnecessary use of hot water. It also leads to a reduction in energy consumption for heaters and boilers.

L'ouverture à froid permet d'actionner le robinet avec le mitigeur en position centrale en ne laissant passer que l'eau froide. On évite ainsi de consommer de l'eau chaude inutilement. Ce système permet également de réduire la consommation énergétique associée au fonctionnement des chauffe-eaux et des chaudières.

## SHOWERS DOUCHES

### Noken Eco-Flow

#### LIMITERS

These maintain a steady flow rate regardless of pressure changes, limiting it by up to 70%. They can be installed on flexible or rigid pipes.

#### LIMITEURS

Ils maintiennent un débit stable en cas de changement de pression et le réduisent jusqu'à 70 %. Ils peuvent être installés sur les tuyaux ou les flexibles.

### Noken Eco-Air

Natural rainfall was the inspiration behind the development of our innovative Noken Eco-Air technology. Air is drawn in to the shower head and mixed with water at a ratio of 3:1, then swirled around. It reduces water consumption by 10% and offers an improved waterfall effect.

Le développement de la technologie innovante Noken Eco-Air s'inspire de la pluie. L'air est aspiré par le pommeau de la douche et se mélange à l'eau dans un rapport de 3 pour 1, puis crée un tourbillon. Cela permet de réduire la consommation d'eau de 10 % et d'améliorer la qualité du jet.

### Noken Eco-Stop

Noken has several different thermostatic faucets with ECO buttons. This mechanism enables savings of up to 50% of consumption. When the user reaches half of the flow handle's distance, it stops until the user presses the ECO button to access the thermostatic faucet's total available flow.

Noken propose plusieurs robinetteries thermostatiques avec bouton ECO. Ce mécanisme permet de réaliser une économie allant jusqu'à 50%. Lorsque l'utilisateur actionne le levier de débit jusqu'à la moitié de sa course, ce dernier s'immobilise jusqu'à ce que l'utilisateur actionne le bouton ECO permettant d'accéder à la totalité du débit du robinet thermostatique.

## SANITARYWARE SANITAIRE

### Noken Eco-Flush

Noken has incorporated several ECO flush mechanisms which save up to 61% water - the double flush uses 3 litres, and the total flush volume is 4.5 litres, compared with the conventional 9 litres.

Noken intègre différents mécanismes de chasse d'eau ECO, qui permettent d'économiser jusqu'à 61 % d'eau. En effet, la double chasse consiste en une chasse réduite de 3 litres sur un volume total de 4,5 litres au lieu des 9 litres conventionnels.

## SHOWER TRAYS RECEVEURS DE DOUCHES

eco  
light

### Noken Eco-Light

The Light Stone series is characterised by being as light as it is resistant, and is easy to transport and install.

Our Light Stone shower trays have a compact flax fibre core.

By replacing wood with surplus flax fibre, we're constructing eco-friendly panels that help protect the environment and create a more sustainable future, combating deforestation.

Facile à transporter et à poser, la série Light Stone se distingue par sa légèreté et sa résistance.

Le cœur de nos receveurs de douche Light Stone se compose d'une âme en fibre de tige de lin compacte.

En remplaçant le bois par les surplus de la production de fibres de lin, nous avons développé des panneaux écologiques qui protègent l'environnement, et contribuent à un futur plus durable en luttant contre la déforestation.

45% recycled flax fibre · 45 % de fibres de lin recyclées

eco  
stone

### Noken Eco-Stone

Mineral Stone represents our commitment to the environment without sacrificing the properties of high quality components: resistance, purity and lightness.

The formula we use for our Mineral Stone shower trays is composed of 60% natural calcium carbonate, recycled from white marble quarries.

This has been validated by SGS, which has certified that our Eco-Stone plates comply with ISO 14021:2017, thus confirming our commitment to transparency and sustainability.

La ligne Mineral Stone est le reflet de notre engagement pour l'environnement, sans renoncer aux propriétés qui garantissent des éléments d'une qualité maximale : résistance, pureté et légèreté.

La masse que nous utilisons dans nos receveurs de douche Mineral Stone est composée à 60 % de carbonate de calcium naturel, issu du surplus des carrières de marbre blanc.

Ceci a été validé par SGS, qui a certifié que nos plaques Eco-Stone sont conformes à la norme ISO 14021:2017, confirmant ainsi notre engagement en faveur de la transparence et de la durabilité.

60% recycled white marble · 60 % de marbre blanc recyclé

## Cr<sup>+</sup> Noken Maximum Chrome

Noken Maximum Chrome guarantees the beauty, durability and optimum resistance of the chrome finish, thanks to rigorous controls and daily monitoring during the chrome plating process to ensure optimum nickel and chrome thicknesses for each piece.

Noken Maximum Chrome garantit la beauté, la durabilité et la résistance optimale de sa finition chromée, étayée par des contrôles rigoureux et un suivi minutieux durant toute la phase de chromage, qui assure des épaisseurs de nickel et de chrome optimales.

## Noken Tri-Control

Thanks to our Tri-Control cartridges, customers can regulate the water flow, temperature and outlet by moving the tap lever.

Grâce à nos cartouches Tri-Control, le client peut régler le débit, la température et la sortie de l'eau d'un mouvement de la commande des robinets.

## Noken Energy

Noken Energy is a new type of jet that surrounds you in a soft and pleasant rain that refreshes and revitalises. Each nozzle has several micro-holes (instead of one) that divide the stream into micro droplets. This creates a new shower sensation that is much more relaxing and silent.

Noken Energy est un nouveau type de jet qui vous enveloppe d'une pluie douce et agréable, fraîche et revitalisante. Chaque tête possède plusieurs orifices fins (au lieu d'un) qui divisent le jet en micro-gouttes. Cela crée une nouvelle sensation de douche, bien plus relaxante et silencieuse.

Relaxing. Many more micro-drop jets that make the water fall as small and light drops, achieving a much more relaxing and pleasant shower.

Relaxante. Bien plus de jets de micro-gouttes font que l'eau tombe comme de petites gouttes légères, pour offrir une douche beaucoup plus relaxante et agréable.

More silent. water flows quietly from the nozzles and falls gently on you, producing less noise than a standard shower.

Plus silencieuse. L'eau s'écoule silencieusement des têtes et tombe doucement sur vous, produisant moins de bruit qu'une douche classique.

Less splashing. water falls so lightly on your skin that it reduces splashing. This helps you keep the bathroom clean.

Moins d'éclaboussures. L'eau tombe si légèrement sur votre peau que le nombre d'éclaboussures est réduit. Cela vous aide à garder la salle de bains propre.

Easy to clean. Silicone nozzles can be easily cleaned and removing any limescale that may accumulate on them is easy.

Facile à nettoyer. Les têtes en silicone se nettoient facilement en éliminant toute accumulation éventuelle de calcaire.

## Noken Optimum Flow

Noken Optimum Flow technology ensures optimum performance in low pressure and low flow conditions. Designed to maximise efficiency, it optimises water flow, providing a satisfying showering experience with uniform flow and constant pressure with reduced water consumption, even in low water pressure installations. It operates effectively at low flow rates thanks to advanced engineering that maintains functionality and comfort. This contributes to water savings by promoting sustainability and reducing costs, significantly improving efficiency and the showering experience.

La technologie Noken Optimum Flow garantit des performances optimales dans des conditions de faible pression et de faible débit. Conçue pour maximiser l'efficacité, elle optimise le débit d'eau, offrant une expérience de douche satisfaisante avec un débit uniforme et une pression constante tout en réduisant la consommation d'eau, même dans les installations à faible pression d'eau. Elle fonctionne efficacement à faible débit grâce à une ingénierie avancée qui préserve la fonctionnalité et le confort. Il contribue aux économies d'eau en promouvant la durabilité et en réduisant les coûts, en améliorant de manière significative l'efficacité et l'expérience de la douche.

**UNIFORM FLOW**

**OPTIMUM PERFORMANCE**  
RENDEMENT OPTIMAL

## Noken Safe Stop

For us, bathroom safety is crucial. For this reason, thermostatic taps include the function Noken Safe Stop, which stops the water temperature going any higher than 38°C to guarantee safety (especially for children).

This technology will also cut off the hot water supply if the cold water flow is interrupted, avoiding the risk of burns.

La sécurité de votre salle de bains est primordiale pour nous. C'est pourquoi les robinets thermostatiques sont équipés de la fonction Noken Safe Stop, qui bloque la température de l'eau à 38 °C pour plus de sécurité (en particulier chez les enfants).

Ce système coupe également l'alimentation en eau chaude en cas d'interruption de l'alimentation en eau froide, afin d'éviter les risques de brûlure.

## Noken Heat Protect

The Noken heat protect system is designed to control the maximum hot water temperature, ensuring a safe and efficient environment. It is highly recommended for collective installations such as hotels, schools, hospitals and residences. This system is essential to prevent scalding and to reduce the excessive consumption of hot water.

**Energy Saving:** By limiting the hot water temperature, energy consumption is reduced, as it is not necessary to heat the water to excessively high temperatures.

**Safety:** The main benefit is the prevention of burns, especially in facilities where there are vulnerable people such as children, elderly and patients. The main benefit is the prevention of burns, especially in facilities where there are vulnerable people such as children, elderly and patients.

*Le système de protection thermique Noken est conçu pour contrôler la température maximale de l'eau chaude, garantissant ainsi un environnement sûr et efficace. Il est fortement recommandé pour les installations collectives telles que les hôtels, les écoles, les hôpitaux et les résidences. Ce système est essentiel pour éviter les brûlures et réduire la consommation excessive d'eau chaude.*

*Économie d'énergie: en limitant la température de l'eau chaude, la consommation d'énergie est réduite, car il n'est pas nécessaire de chauffer l'eau à des températures trop élevées.*

*Sécurité: Le principal avantage est la prévention des brûlures, en particulier dans les installations où se trouvent des personnes vulnérables telles que des enfants, des personnes âgées et des patients. Le principal avantage est la prévention des brûlures, en particulier dans les établissements où se trouvent des personnes vulnérables telles que des enfants, des personnes âgées et des patients.*

## Noken Thermostrust

Thanks to the spout, thermostatic taps with Noken Thermostrust technology guarantee the body of the tap stays cold, avoiding any potential burns.

Grâce à leur manteau, les robinetteries thermostatiques équipées de la technologie Noken Thermostrust garantissent que le corps thermostatique reste froid, afin d'éviter les brûlures.

## Selected Raw Material

The internal controls for the selection of the raw material allow to work only with the best fabrication materials for the sanitary ceramics.

Grâce aux contrôles internes sur la sélection des matières premières, nous travaillons uniquement avec les meilleurs matériaux pour la fabrication de la porcelaine sanitaire.

## Noken Easy Clean

The sanitary ceramics requires little time and effort for being clean, allowing an easy maintenance and keeping the highest standards.

La porcelaine sanitaire nécessite peu de temps et d'effort pour être nettoyée, ce qui facilite l'entretien et permet de conserver toutes ses garanties.

## Compact Ceramics

The material is made at 2250°F, and it allows the perfect compaction of the materials, resulting in the final ceramics with a greater impact resistance. Furthermore, our sanitary ceramics remains unchanged subjected to thermal shock.

La cuisson du matériau à 1250 °C permet une parfaite homogénéisation du matériau et lui donne une résistance accrue aux impacts. Notre porcelaine sanitaire reste par ailleurs inaltérable lorsqu'elle est soumise au choc thermique.

## Noken Ergonomic

We focus our efforts on innovation and developing products that adapt to our customer's day-to-day needs, seeking ease of use and comfort in every design. Noken Ergonomic toilets and baths are just some of our products that have ergonomic principles at their core.

Nous nous concentrons sur l'innovation et le développement de produits faciles à utiliser, adaptés au quotidien de nos clients, qui misent sur la praticité et le design. Les WC ou les baignoires Noken Ergonomic font partie des produits développés pour une meilleure ergonomie.

## Planimetrics

Noken Ceramic formula allows designs with quality tolerances which are very demanding in planimetrics and surfaces.

La formule Noken Ceramic permet de créer des designs avec des tolérances de qualité très exigeantes en termes de planimétrie et de surface.

## Noken Mute System

Having a silent flush brings a sense of calm and wellbeing to your daily routine.

La chasse d'eau silencieuse est ainsi gage de calme et de bien-être au quotidien.

## Chemical Resistant

The bathroom is subjected to many chemical products. Due to this, Noken Ceramic has a strong resistance against all those corrosive agents.

La salle de bain est exposée à de nombreux produits chimiques. C'est pourquoi Noken Ceramic est extrêmement résistant à tous les agents corrosifs.

## Noken Lift-Up

All of our toilet seats incorporate Lift-Up technology. This means you can remove the seat, guaranteeing ceramic sanitaryware that's easier to clean and as hygienic as possible. The toilet system incorporates seats that can be unfastened by gently pulling when the seat is in the open position.

Tous nos sièges de WC intègrent la technologie Lift-Up. Ils sont donc démontables, pour faciliter leur nettoyage et garantir une hygiène irréprochable de la céramique sanitaire. Ce système pour WC se caractérise par des sièges qui se décrochent d'un simple geste de la main quand ils sont placés en position ouverte.

clean  
rimless

## Noken Clean Rimless

This is high-efficiency toilet cleaning technology with an innovative design, with a symmetrical flush for both sides of the walls.

Une technologie de nettoyage pour des WC haute efficacité à la conception innovante, qui assure une chasse d'eau symétrique des deux côtés des parois.

### EASY CLEAN

The elimination of the flange guarantees greater continuity of the surfaces inside the toilet, easing its cleaning and a lesser use of disinfectants.

*L'élimination de la bride assure une meilleure continuité des surfaces de l'intérieur de la cuvette. Cela permet de faciliter le nettoyage tout en utilisant moins de désinfectants.*

### EFFICIENT FLUSH

This technology, by means of several water outlets, rinses the inside of the entire toilet, increasing the efficiency of the product and reaching every corner.

*Cette technologie, par le biais de plusieurs sorties d'eau, rince l'intérieur de l'ensemble des toilettes, ce qui augmente l'efficacité du produit et permet d'atteindre tous les recoins.*

### NO SPLASH

The accurate conduction of the water on the surfaces of the bowl of the toilet, with the right strength, confers an exceptional operation without splashing.

*L'acheminement précis de l'eau sur les surfaces de la cuvette avec la force adaptée permet un fonctionnement exceptionnel et sans éclaboussures.*

### MORE SILENT

Thanks to its flushing system, it increases comfort as it significantly reduces the noise of flushing operations.

*Grâce à son système d'évacuation, il améliore le confort du produit en réduisant considérablement le bruit de la chasse d'eau.*

## Noken Clean Tornado

The new Clean Tornado flushing system cleans the toilet bowl completely thanks to its centrifugal effect. The water is forcefully expelled from a hole in the side of the toilet, generating a vortex effect that rotates 360°. With this new design, maximum hygiene and cleanliness is achieved in the toilet without splashing and with greater sound reduction.

Le nouveau système de chasse d'eau Clean Tornado assure un nettoyage complet de la cuvette des toilettes grâce à son effet centrifuge. L'eau est expulsée avec force par un trou sur le côté des toilettes, générant un effet de vortex qui tourne à 360°. Cette nouvelle conception permet d'obtenir une hygiène et une propreté maximales dans les toilettes, sans éclaboussures et avec une plus grande réduction du bruit.

### EASY CLEAN

The elimination of the flange ensures greater continuity of the surfaces inside the toilet, thus facilitating cleaning and reducing the use of disinfectants. In addition, its minimalist design is reinforced with a single outlet hole, achieving an even more refined aesthetic.

*L'élimination de la bride assure une plus grande continuité des surfaces à l'intérieur des toilettes, ce qui facilite le nettoyage et réduit l'utilisation de désinfectants. De plus, son design minimaliste est renforcé par un seul trou d'évacuation, ce qui permet d'obtenir une esthétique encore plus raffinée.*

### EFFICIENT FLUSH

This technology, with a single outlet, rinses the inside of the entire toilet with great efficiency, guaranteeing uniform cleaning and reaching all corners.

*Cette technologie, avec une seule sortie, permet de rincer l'intérieur de l'ensemble des toilettes avec une grande efficacité, en garantissant un nettoyage uniforme et en atteignant tous les coins.*

### NO SPLASH

Precise water guidance over the surfaces of the toilet bowl, with the right force and vortex movement, results in exceptional splash-free operation.

*Le guidage précis de l'eau sur les surfaces de la cuvette, avec la force et le mouvement de vortex appropriés, permet un fonctionnement exceptionnel sans éclaboussures.*

### MORE SILENT

Thanks to its flushing system, noise is even lower, offering a quieter experience without compromising efficiency.

*Grâce à son système de rinçage, le bruit est encore plus faible, offrant une expérience plus silencieuse sans compromettre l'efficacité.*

# NOKEN HEALTH

## HYGIENIC SURFACES SURFACES HYGIÉNIQUES

All our products are developed to guarantee people's health and safety hygiene, through product innovations that make it harder for bacteria to proliferate thanks to the high quality materials used.

Tous nos produits sont développés dans le but de garantir l'hygiène et la santé des utilisateurs au moyen d'innovations produit qui évitent la prolifération des bactéries grâce aux matériaux ultra qualitatifs dont ils sont composés.

## GLAZED COMPACT VITRIFIÉ COMPACT

By means of chemical formulation of Noken Ceramic and its lacquered treatment, it is obtained a vitrified without pores, scratchproof and hypoallergenic.

Noken's glazed porcelain is resistant to chemical agents, detergents and disinfectants according to UNE56867.

Based on its extreme resistance to these tests we can determine the material is suitable as an ANTIBACTERIAL MATERIAL, as it remains unchanged and tolerates heavy cleaning.

Grâce à la formule chimique de Noken Ceramic et à son émailage, on obtient une vitrification sans pores, résistante aux rayures et hypoallergénique.

La résistance aux agressions chimiques, aux détergents et aux désinfectants de la porcelaine vitrifiée Noken Ceramic est garantie par la norme UNE56867.

Ce matériau, qui fait preuve d'une résistance extrême lors de ces tests, peut ainsi être qualifié de MATÉRIAU ANTIBACTÉRIEN, car il n'est aucunement altéré par une désinfection approfondie.

## OXYGEN-RICH MICROBUBBLES

### MICRO-BULLES RICHES EN OXYGÈNE

The new Noken Care system is a wellness treatment using oxygen microbubbles with amazing skin treatment benefits. It improves our well-being and nightly rest.

*Le nouveau système Noken Care est un traitement Wellness de micro-bulles d'oxygène avec de grands avantages pour le traitement de la peau. Son utilisation améliore notre bien-être et notre repos nocturne.*

Thanks to the enrichment of water with oxygen, we can achieve optimal oxygenation, regeneration and hydration of the skin.

*Grâce à l'enrichissement de l'eau en oxygène, la peau est oxygénée, régénérée et hydratée de manière optimale.*

It activates the production of collagen in our body, which helps reduce wrinkles and illuminates the skin.

*Active la production de collagène de notre corps, ce qui contribue à réduire les rides et à illuminer la peau.*

It accelerates the skin's cell metabolism, helping to replace dead cells with new ones.

*Accélère le métabolisme des cellules de la peau, les cellules mortes sont remplacées par de nouvelles.*

It increases serotonin levels, improving our well-being and nightly rest.

*Augmente les niveaux de sérotonine, améliorant le bien-être et influençant le repos nocturne.*

## FIZZ - HYDROTHERAPY

### FIZZ - HYDROTHERAPIE

Hydrotherapy is that part of physical therapy that uses water in any state, form or temperature to relieve discomfort and promote physical well-being.

*L'hydrothérapie est la partie de la thérapie physique qui utilise l'eau dans n'importe quel état, forme ou température pour soulager l'inconfort et promouvoir le bien-être physique.*

## CHROMOTHERAPY

### CHROMOTHÉRAPIE

It stimulates the senses to reset the imbalances generated by the stress of the day to day and/or to promote the most positive moods through the benefits of colour.

*Stimule les sensations pour rétablir les déséquilibres causés par le stress quotidien et/ou renforcer les humeurs positives grâce aux bienfaits de la couleur.*

# Finish Studio

"Finish Studio is a meticulously selected AESTHETIC that Noken applies to its products as if they were a blank slate."

## ARTISTIC UNIQUE

With an artistic approach and traditional charm, baths, washbasins and shower trays take on new skins, mimicking other surfaces.

The perfect combination of innovation, meticulously selected materials, and a production process in which we pander to every detail, results in natural coloured, beautifully tactile ceramic pieces with unbeatable resistance.

"Finish Studio est un rendu ESTHÉTIQUE soigneusement sélectionné que Noken applique à ses produits, comme s'il s'agissait de toiles blanches."

## ARTISTIQUE INIMITABLE

Les baignoires, lavabos et receveurs de douches revêtent de nouveaux atours et imitent d'autres surfaces, dans un esprit artistique au charme traditionnel.

L'innovation, la minutieuse sélection des matériaux et un processus de production attentif à chaque détail : une formule parfaite pour des pièces céramiques aux couleurs naturelles, agréables au toucher et offrant une série de prestations uniques en termes de résistance.

Round i-Smart transforms the kitchen into a healthier, more efficient and elegant space. A single sink mixer, four types of filtered water (natural, ultra-cold, boiling and sparkling) with a careful design and integrated technology to simplify your daily life.

Round i-Smart transforme la cuisine en un espace plus sain, plus efficace et plus élégant. Un mitigeur simple, quatre types d'eau filtrée (naturelle, ultra-froide, bouillante et pétillante) avec un design soigné et une technologie intégrée pour simplifier votre quotidien.

**NATURAL WATER**  
*EAU NATURELLE*

To enjoy pure and healthy water straight from the mixer.

Pour profiter d'une eau pure et saine directement au robinet.

**SPARKLING WATER**  
*EAU GAZEUSE*

Add bubbles to your favourite drinks, straight from the mixer.

Ajoutez des bulles à vos boissons préférées, directement depuis le mixeur.

**ULTRA-COLD WATER**  
*EAU ULTRA-FROIDE*

Perfect for instant refreshment at any time.

Idéal pour se rafraîchir instantanément à tout moment.

**BOILING WATER**  
*EAU BOUILLANTE*

Ideal for preparing coffee or tea safely, thanks to the system that prevents scalding. Hot water temperature configurable from the CPU between 60 and 98 °C.

Idéal pour préparer du café ou du thé en toute sécurité, grâce au système qui empêche les brûlures. Température de l'eau chaude configurable depuis le CPU entre 60 et 98 °C.

Our Touchless product range aims to minimise and even omit the user's contact with bathroom equipment, with everything done using touchless technology.

Noken can offer a wide range of zero contact products, thanks to sensors, infrared and all the latest technologies. At its heart, the need to substantially reduce the number of microorganisms, viruses and bacteria that we're exposed to in everyday life.

La gamme de produits Touchless vise à minimiser voire à supprimer le contact avec l'équipement de salle de bains, qui est actionné grâce à un capteur de proximité.

Capteurs, infrarouges et technologies de pointe permettent à Noken de proposer un large éventail de produits sans contact. Ce système permet de réduire sensiblement la quantité de micro-organismes, de virus et de bactéries auxquels nous sommes exposés quotidiennement.

## SANITARYWARE SANITAIRE

Noken Smart Toilets, which use water for cleaning, are - like other toilets - operated using a flush plate on the wall. You can however use a touchless infrared sensor for flushing.

Any toilet or urinal can be installed with infrared technology to minimise contact.

Les toilettes Noken Smart Toilets, qui effectuent un nettoyage à l'eau, s'activent comme les autres en appuyant sur une plaque. Cependant, la chasse peut également s'activer sans contact grâce à un capteur à infrarouge.

N'importe quel WC ou urinoir peut être équipé d'un capteur à infrarouge afin de minimiser les contacts.

## BRASSWARE ROBINETTERIE

Our Touchless technology sensor taps detect movement under the spout and an infrared sensor activates automatically, supplying the water needed for each use.

These tap systems were initially in high demand for public bathrooms, airports, hotels and sports facilities, but thanks to their sterile, 100% hygienic properties and new designs, they're now one of the most hygienic solutions you could have in the home.

Les robinets équipés de capteurs dotés de la technologie Touchless détectent la présence des mains sous le robinet. Le capteur à infrarouge l'active alors automatiquement et fournit la quantité d'eau nécessaire à chaque utilisation.

Bien que ces systèmes de robinetterie soient très demandés dans les toilettes publiques, les aéroports, les hôtels ou les centres sportifs, leurs qualités aseptiques, 100 % hygiéniques et leurs nouveaux designs en font une solution d'hygiène très populaire dans les habitations.

For installation in wall frames/cisterns, check the maximum installation range of the pipes already included (drainage and supply) with the dimensions indicated in their respective drawings: Drainage connection pipe: If a longer pipe length is required, up to a maximum installation range of 245 mm, please request the pipe corresponding to the code 100213056. Supply pipe: If a longer pipe length is required, up to a maximum installation range of 260 mm, please request the pipe corresponding to the code 100213068.

Pour l'installation sur des châssis/citernes, vérifier la plage maximale d'installation des tubes déjà inclus (évacuation et alimentation) avec les cotes indiquées sur leurs plans respectifs : Tuyau de raccordement de vidange : si vous avez besoin d'une longueur de tube supérieure, et pour une plage maximale d'installation de 245 mm, demandez le tube correspondant au code 100213056. Tube d'alimentation : si vous avez besoin d'une longueur de tube supérieure, et pour une plage maximale d'installation de 260 mm, demandez le tube correspondant au code 100213068.

Tube d'alimentation : si vous avez besoin d'une longueur de tube supérieure, et pour une plage maximale d'installation de 260 mm, demandez le tube correspondant au code 100213068.

Possible changes in shade or colour must be considered an intrinsic part of the production process of certain products, such as ceramic bathroom fixtures, whether in glossy white or matt colours (white, black, grey...). It is important to be aware that variations in shade, saturation and gloss may occur, depending on the material on which the colouring pigment is applied (ceramic, urea formaldehyde) and the production batch, including possible variations between parts of the same item, such as the ceramic fixture, the seat, the lid or both.

Les modifications éventuelles de ton ou de couleur doivent être considérées comme faisant partie intégrale du processus de production de certains produits, tels que la céramique sanitaire, soit en couleur blanche brillante, soit en couleur mate (blanc, noir, gris...). Il est important de savoir que des variations de tonalité, de saturation et d'éclat peuvent se produire selon le matériau sur lequel le pigment est appliqué (céramique, urée-formaldéhyde) et son lot de production. Par conséquent, des variations possibles peuvent par exemple exister d'une pièce à l'autre pour un même élément, tel que la céramique sanitaire, le siège, le couvercle ou les deux.

For installation in wall frames/cisterns, check the maximum installation range of the pipes already included (drainage and supply) with the dimensions indicated in their respective drawings: Drainage connection pipe: If a longer pipe length is required, up to a maximum installation range of 245 mm, please request the pipe corresponding to the code 100213056. Supply pipe: If a longer pipe length is required, up to a maximum installation range of 260 mm, please request the pipe corresponding to the code 100213068.  
Pour l'installation sur des châssis/citernes, vérifiez la plage maximale d'installation des tubes déjà inclus (évacuation et alimentation) avec les cotes indiquées sur leurs plans respectifs : Tuyau de raccordement de vidange : si vous avez besoin d'une longueur de tube supérieure, et pour une plage maximale d'installation de 245 mm, demandez le tube correspondant au code 100213056. Tube d'alimentation : si vous avez besoin d'une longueur de tube supérieure, et pour une plage maximale d'installation de 260 mm, demandez le tube correspondant au code 100213068.

Possible changes in shade or colour must be considered an intrinsic part of the production process of certain products, such as ceramic bathroom fixtures, whether in glossy white or matt colours (white, black, grey...). It is important to be aware that variations in shade, saturation and gloss may occur, depending on the material on which the colouring pigment is applied (ceramic, urea formaldehyde) and the production batch, including possible variations between parts of the same item, such as the ceramic fixture, the seat, the lid or both.

Les modifications éventuelles de ton ou de couleur doivent être considérées comme faisant partie intégrale du processus de production de certains produits, tels que la céramique sanitaire, soit en couleur blanche brillante, soit en couleur mate (blanc, noir, gris...). Il est important de savoir que des variations de tonalité, de saturation et d'éclat peuvent se produire selon le matériau sur lequel le pigment est appliqué (céramique, urée-formaldéhyde) et son lot de production. Par conséquent, des variations possibles peuvent par exemple exister d'une pièce à l'autre pour un même élément, tel que la céramique sanitaire, le siège, le couvercle ou les deux.

For installation in wall frames/cisterns, check the maximum installation range of the pipes already included (drainage and supply) with the dimensions indicated in their respective drawings: Drainage connection pipe: If a longer pipe length is required, up to a maximum installation range of 245 mm, please request the pipe corresponding to the code 100213056. Supply pipe: If a longer pipe length is required, up to a maximum installation range of 260 mm, please request the pipe corresponding to the code 100213068.  
*Pour l'installation sur des châssis/citernes, vérifier la plage maximale d'installation des tubes déjà inclus (évacuation et alimentation) avec les cotes indiquées sur leurs plans respectifs : Tuyau de raccordement de vidange : si vous avez besoin d'une longueur de tube supérieure, et pour une plage maximale d'installation de 245 mm, demandez le tube correspondant au code 100213056. Tube d'alimentation : si vous avez besoin d'une longueur de tube supérieure, et pour une plage maximale d'installation de 260 mm, demandez le tube correspondant au code 100213068.*

Bidet suspendu 49cm avec fixations.

For installation in wall frames/cisterns, check the maximum installation range of the pipes already included (drainage and supply) with the dimensions indicated in their respective drawings: Drainage connection pipe: If a longer pipe length is required, up to a maximum installation range of 245 mm, please request the pipe corresponding to the code 100213056. Supply pipe: If a longer pipe length is required, up to a maximum installation range of 260 mm, please request the pipe corresponding to the code 100213068.  
Pour l'installation sur des châssis/citernes, vérifier la plage maximale d'installation des tubes déjà inclus (évacuation et alimentation) avec les cotes indiquées sur leurs plans respectifs : Tuyau de raccordement de vidange : si vous avez besoin d'une longueur de tube supérieure, et pour une plage maximale d'installation de 245 mm, demandez le tube correspondant au code 100213056. Tube d'alimentation : si vous avez besoin d'une longueur de tube supérieure, et pour une plage maximale d'installation de 260 mm, demandez le tube correspondant au code 100213068.

\* The colour shown in this graphic, may have variations in shade, saturation and brightness, with respect to the finished product.

\* La couleur représentée dans ce document graphique peut présenter des variations de teinte, de saturation et de brillance, par rapport au produit fini.

\*\* Made to order

\*\* Sur commande spéciale

\*\*\* All natural materials are perfectly imperfect. The variation between pieces makes each one of them unique and unrepeatable. This feature IS NOT A MATERIAL DEFECT but rather an inherent part of the product's beauty.

Therefore, it is very important that you understand you are buying a natural product whose characteristics include in some cases:

- Fissures or cracks. Cracks often appear on the surface of stones. This characteristic is very common in most natural products.
- Variation in tone. All natural materials vary both in tone and in the structure of the piece. Noken carries out an exhaustive classification by which elements that do not reach our quality standards are eliminated.

\*\*\* Tous les matériaux naturels sont parfaitement imparfaits. La variation qui existe entre les pièces rend chacune d'entre elles unique et inimitable. Cette caractéristique N'EST PAS UN DÉFAUT DE LA MATIÈRE, mais une partie inhérente de la beauté du produit.

Il est donc très important que vous compreniez que vous achetez un produit naturel dont les caractéristiques incluent dans certains cas:

- Des fissures ou des craquelures. Les fissures apparaissent souvent à la surface des pierres. Cette caractéristique est très courante dans la plupart des produits naturels.
- Variation de nuance. Tous les matériaux naturels varient tant au niveau de leurs nuances que de la structure de la pièce elle-même. Noken procède à une classification exhaustive qui permet d'éliminer les éléments qui ne dépassent pas nos standards de qualité.

## A modern, curved shower system with a large rain showerhead and a handheld showerhead, mounted on a textured wall. The system is made of a dark, metallic material, possibly bronze or black, and features a sleek, curved design. The rain showerhead is large and circular, while the handheld showerhead is smaller and rectangular. The system is mounted on a wall with a fine, woven texture. The background shows a glimpse of a window with greenery outside.

## BENEFITS OF WHIRL TUBS BÉNÉFICIE DU HYDROMASSAGE

A whirl tub is much more than a luxurious accessory for your home. Bathing in whirl bath tubs for a period of time has a number of benefits, both physical and mental.

*L'hydro massage est recommandé par beaucoup de professionnels pour combattre la maladie de notre société : le stress. Les médecins le recommandaient de manière thérapeutique ; dans l'actualité, il s'agit d'une recommandation préventive. L'hydro massage peut également combattre l'anxiété et l'insomnie puisque cela fait du bien non seulement à notre corps mais aussi à notre esprit.*

Bubble baths have very positive effects on arterial circulation. Pressure activates the circulation of the blood and also benefits the cardiac activity. It also allows relaxation of the muscles and eliminates toxins when opening the pores. These baths are good for relieving stomach ulcers and for recovering from fractures and muscle injuries.

Cellulite is also combated thanks to the pressure jets of these bathtubs. It is good to take a bath after practicing sports.

*Les bains à bulles exercent des effets très positifs sur la circulation sanguine. La pression active la circulation sanguine et aide l'activité cardiaque. Cela permet aussi de relaxer les muscles et d'éliminer les toxines en ouvrant les pores. Ce type de bains permet de soulager les ulcères d'estomac et de récupérer de fractures et lésions musculaires.*

## BENEFITS OF CHROMOTHERAPY BÉNÉFICIES DE LA CHROMOTHÉRAPIE

Chromotherapy is not only a beautiful play of light and colours. There are several studies certifying the full functionality of this practice, and helps establishing emotional balance for dealing with everyday problems. From a range of cold colours, so related to relaxation and tranquility, to the vital energy given by warm colours, chromotherapy, together with the effect of the different outlets, can lead to highly significant benefits for body and mind.

*La chromothérapie n'est pas uniquement un jeu de lumières et de couleurs. Plusieurs études certifient que cette pratique est entièrement fonctionnelle, car elle peut contribuer à établir un équilibre émotionnel qui aide à affronter les problèmes quotidiens. Que ce soit avec une gamme de couleurs froides qui apportent détente et tranquillité, ou avec des couleurs chaudes qui donnent de l'énergie vitale, cette pratique, associée aux effets des sorties d'eau variées, peut apporter des bienfaits très importants pour le corps et l'esprit.*

### INTRODUCTION · INTRODUCTION

1

Enjoy the pleasant sensations of air jets with the massaging power of whirl jets

*Submergez votre corps autant que vous pouvez et relaxez vous.*

2

Select carefully the intensity and position of the jets to your personal preferences.

*Sélectionner l'intensité de pression et la position des buses.*

3

Do not use the whirl tub while under the influence of drugs or alcohol.

*Si vous êtes très fatigué ou sous l'effet de l'alcool ou de médicaments, ne prenez pas votre bain afin d'éviter de vous évanouir.*

4

Do not use the whirl tub when you feel sleepy

*Si vous avez une sensation de sommeil, sortez rapidement de votre bain.*

5

Do not use massaging jets during pregnancy

*Si vous êtes enceinte, ne pas activer les buses d'hydro massage non recommandées.*

6

The product is designed to be used only by adults. Children, elderly or infirm individuals should only use the whirl tub under supervision.

*Attention aux enfants, toujours les contrôler s'ils sont proche ou dans la baignoire.*

7

Make sure you do not activate the hydro system until the tub is filled with sufficient water.

*Ne pas activer le système d'hydro massage avant d'avoir un niveau minimum d'eau.*

8

The recommended bathing time is 15 to 20 minutes.

*Ne pas rester des heures dans le bain. Vous pouvez avoir une baisse de tension. La durée recommandée est de 15-20 minutes. Faites attention au fait que, plus l'eau est froide, plus le bain doit être de courte durée.*

## ELECTRONICS OPTIONS OPTIONS ÉLECTRONIQUES

## HYDRO

## SCREEN KEYPAD CLAVIER

Extra-slim glass keypad with led signal to activate the HYDRO feature. Screen printing ink is treated at a temperature of 140 °C, with a special anti-moisture protection for protecting the keypad and ensuring the durability of the product. *Clavier en verre ultra-plat avec LED de signalisation pour activer la fonction HYDRO. L'encre de la sérigraphie est traitée à une température de 140 °, avec une protection spéciale anti-humidité pour protéger le clavier et garantir la durée de vie du produit.*

## PUMP POMPE

With 800W of power, it has a perfect performance for providing a relaxing massage that, together with its low noise level, ensures optimum comfort. The pump is equipped with an electronic level sensor which prevents it from functioning if the necessary minimum water level has not been reached. *D'une puissance de 800 W, elle possède un rendement idéal pour effectuer un massage relaxant avec un faible niveau sonore, ce qui garantit un confort optimal. La pompe est équipée d'un capteur de niveau électronique pour empêcher la mise en route si le niveau d'eau minimum nécessaire n'est pas atteint.*

## SUCTION ASPIRATION

With low water retention, the suction mouth meets the highest quality standards. Its safety system prevents any potential blockage and, thanks to its high-quality decorative chroming, any obstruction of the hydraulic circuit is prevented. *Grâce à une faible rétention d'eau, la bouche d'aspiration est conforme aux standards de qualité les plus stricts. Son système de sécurité empêche tout blocage éventuel et son cache chromé de qualité supérieure permet d'éviter toute obstruction du circuit hydraulique.*

## HYDRO JET JET HYDRO

The ergonomics of the hydro jet makes it blend with the bathtub walls, offering a unique massage. Injectors can be tilted manually up to 45° and are therefore completely adjustable. This feature allows the user to choose the exact place where they want to receive the massage. In addition, the flat design of the jets allows the user to get the most out of the feeling provided by the water in contact with the skin.

The trim and the jet nozzle are easily removed, allowing for easy cleaning and replacement (click-type). The pipe emptying system is activated from the keypad. *L'ergonomie du jet hydro, qui se fond avec les parois de la baignoire, permet d'offrir un massage unique. Les injecteurs, totalement orientables, peuvent être inclinés manuellement jusqu'à 45 °. Grâce à cette caractéristique, l'utilisateur peut choisir l'endroit exact où il souhaite se faire masser. Le design plat des jets permet en outre à l'utilisateur de profiter au maximum de la sensation qu'offre le contact de l'eau avec la peau.*

Le cache et la buse du jet sont faciles à démonter (système à clic), ce qui facilite le nettoyage et le remplacement. On déclenche le système de vidage des tuyaux depuis le clavier.

## BLOWER BLOWER

With 400W power, the blower makes the air jet inside the bathtub create a soft and enveloping massage. The air circuit installation system itself, and the inclusion of a check valve, ensure that water can never go back and reach the blower. *D'une puissance de 400 W, le blower crée à l'intérieur de la baignoire un jet d'air qui réalise un massage doux et enveloppant. Grâce au système d'installation du circuit d'air et au clapet anti-retour intégré, l'eau ne peut jamais revenir et atteindre le blower.*

## AIR JET JET AIR

The ergonomic design of air jets offers the best massage, providing all the benefits of a professional massage. The high-gloss chromed brass jets are located at the base of the bathtub. Its extra-slim design allows for an unbeatable feeling when the air comes in contact with the skin.

The pipe emptying system is activated from the keypad. *Le design ergonomique des jets d'air permet un massage optimal qui offre tous les bienfaits d'un massage professionnel. Les jets en laiton chromé finition haute brillance sont situés à la base de la baignoire. Leur design ultra-plat procure une sensation incomparable lorsque l'air entre en contact avec la peau.*

On déclenche le système de vidage des tuyaux depuis le clavier.

## CARE

## SCREEN KEYPAD CLAVIER

Extra-flat crystal keyboard with independent LED indicator lights to activate CARE and FIZZ functions. The screen printing ink is applied at 140°C, with special anti-humidity protection for the keyboard and to guarantee the durability of the product. *Clavier en verre extra-plat avec LED de signalisation indépendantes pour l'activation des fonctions CARE et FIZZ. L'encre de sérigraphie est traitée à une température de 140°C, avec un revêtement spécial anti-humidité pour protéger le clavier et garantir la durabilité du produit.*

## CARE PUMP POMPE CARE

High-power, high-pressure pump, specially designed for the CARE function, which generates micro-oxygenating bubbles for skin care. The system is equipped with an electronic level sensor that prevents the pump from starting if the minimum water level is not reached. *Avec une puissance et une pression élevées, spécialement conçues pour sa fonction CARE, il génère des microbulles oxygénantes pour les soins de la peau. Le système est équipé d'un capteur de niveau électronique qui empêche la pompe de démarrer si le niveau d'eau minimum requis n'est pas atteint.*

## CARE ASPIRATION ASPIRATION CARE

With low water retention, the suction nozzle meets the highest quality standards. Its safety system prevents any possible blockage and its trim prevents any obstruction of the hydraulic circuit. *Avec une faible rétention d'eau, la buse d'aspiration répond aux normes de qualité les plus élevées. Son système de sécurité empêche tout blocage éventuel, son cache empêche toute obstruction du circuit hydraulique.*

## CARE JET JET CARE

In operation, it generates a wide cone of micro-bubbles that spread quickly throughout the water in the bathtub, giving the surface a milky-white appearance. The contact of the micro bubbles with the user's skin produces a tickling sensation. The flat, ergonomically designed jet fits perfectly into the sides of the bathtub, contributing to its elegant appearance. The jet trim can be easily removed, facilitating cleaning and replacement. Pendant son fonctionnement, il génère un grand cône de microbulles qui, en peu de temps, se répandent sur tout le volume d'eau de la baignoire et recouvrent toute la baignoire d'un aspect blanc laiteux. Une sensation de picotement effervescent est ressentie lorsque les micro-bulles entrent en contact avec la peau de l'utilisateur. L'ergonomie plate du jet lui permet de s'adapter parfaitement aux parois de la baignoire donnant un rendu esthétique approprié. Le cache du jet peut être facilement retiré pour être nettoyé et remplacé.

## HEATER CHAUFFAGE

With a power of 2000W, the heater allows the maintenance of the water temperature between 38-40°. A level probe, a safety temperature probe and a heater safety thermostat allow the placid and quiet bath with absolute safety. *Avec une puissance de 2000W, le chauffage permet le maintien de la température de l'eau entre 38 et 40°. Une sonde de niveau, une sonde de température de sécurité et un thermostat de sécurité chauffant permettent un bain relâché et silencieuse.*

<sup>(1)</sup> Only required for the models not including brassware • *Nécessaire uniquement pour les modèles sans robinetterie*

<sup>(2)</sup> Recommended use of 2 sets • *On recommande 2 jeux pour ce modèle*

<sup>(3)</sup> Required for all built-in installations • *Nécessaire pour tous les modèles encastrés*

<sup>(4)</sup> In addition to the variables of the production process, the perception of the colour shade is also influenced by the conditions of the light source, viewing angle and the psychophysical characteristics of the observer or the medium used for viewing. • *Outre les variables du processus de production, la source d'éclairage, l'angle de vue et les caractéristiques psychophysiques de l'observateur ou du moyen utilisé pour la visualisation influent également sur la perception de la tonalité choisie.*

<sup>(1)</sup> Only required for the models not including brassware • *Nécessaire uniquement pour les modèles sans robinetterie*

<sup>(2)</sup> Recommended use of 2 sets • *On recommande 2 jeux pour ce modèle*

<sup>(3)</sup> Required for all built-in installations • *Nécessaire pour tous les modèles encastrés*

<sup>(4)</sup> In addition to the variables of the production process, the perception of the colour shade is also influenced by the conditions of the light source, viewing angle and the psychophysical characteristics of the observer or the medium used for viewing. • *Outre les variables du processus de production, la source d'éclairage, l'angle de vue et les caractéristiques psychophysiques de l'observateur ou du moyen utilisé pour la visualisation influent également sur la perception de la tonalité choisie.*

Noken reserves the right to modify or withdraw products from the catalogue without prior notice, as well as to modify their prices and/or characteristics without prior notice.

The room schemes shown in this catalogue are decorative suggestions for advertising purposes only and should not be used as a guide for the installation of the products. For the installation of the products and to consult their technical characteristics, please refer to the technical data sheets found in the PTC published by Noken. Noken is not responsible for assembly and/or installation errors or defects; it is recommended that the installation is carried out by a professional.

Possible changes in shade or colour must be considered an intrinsic part of the production process of certain products, such as ceramic bathroom fixtures, whether in glossy white or matt colours (white, black, grey...). It is important to be aware that variations in shade, saturation and gloss may occur, depending on the material on which the colouring pigment is applied (ceramic, urea formaldehyde) and the production batch, including possible variations between parts of the same item, such as the ceramic fixture, the seat, the lid or both.

Tones of PVD coated taps may also vary depending on production lots.

In addition to the variables of the production process, the perception of the colour shade is also influenced by the conditions of the light source, viewing angle and the psychophysical characteristics of the observer or the medium used for viewing.

Le contenu de ce catalogue est protégé par des droits d'auteur et par la loi sur la propriété intellectuelle, le décret royal législatif 1/1996. Toute reproduction partielle ou totale de celui-ci, sans l'autorisation expresse de Noken pourra être sanctionnée conformément à la réglementation en vigueur, notamment le code pénal espagnol.

Noken se réserve le droit de modifier ou de retirer les produits du catalogue sans préavis, ainsi que de modifier leurs prix et/ou leurs caractéristiques sans préavis.

Les ambiances présentées dans ce catalogue sont des suggestions de décoration à caractère publicitaire et ne doivent pas être utilisées comme guide pour les installations des produits. Pour installer les produits et connaître leurs caractéristiques techniques, vous devez consulter les fiches techniques qui se trouvent dans le PTC édité par Noken. Noken ne peut pas être tenu responsable des défaillances ou des défauts de montage et/ou d'installation ; il est recommandé que l'installation soit réalisée par un professionnel.

Les modifications éventuelles de ton ou de couleur doivent être considérées comme faisant partie intégrale du processus de production de certains produits, tels que la céramique sanitaire, soit en couleur blanche brillante, soit en couleur mate (blanc, noir, gris...). Il est important de savoir que des variations de tonalité, de saturation et d'éclat peuvent se produire selon le matériau sur lequel le pigment est appliqué (céramique, urée-formaldéhyde) et son lot de production. Par conséquent, des variations possibles peuvent par exemple exister d'une pièce à l'autre pour un même élément, tel que la céramique sanitaire, le siège, le couvercle ou les deux.

Les produits de robinetterie traités avec des finitions en PVD peuvent également présenter des différences de tonalité selon les lots de production.

Outre les variables du processus de production, la source d'éclairage, l'angle de vue et les caractéristiques psychophysiques de l'observateur ou du moyen utilisé pour la visualisation influent également sur la perception de la tonalité choisie.
